Art

This term you will be re-creating a painting which has inspired you. However, do not fret, you can re-create this painting as a picture or as a 3-D creation.....you can re-create it in any way you like! It could even be re-invented as a piece of jewellery. As long as your new artpiece reflects the original painting (your source of inspiration) in some way!

How to begin.

Find a painting that inspires you. The theme must be of Summer. For example, Georgia O Keeffe does beautiful flower paintings which remind me of summer. It could even be an abstract painting – for example, Robert Rauschenberg’s Samarkand Stitches painting reminds me of a summer feeling.

When you have found this painting which inspires you – I want you to draw it and colour it in as perfectly as you can.

You may do this in an A4 or A3 page and in any medium (You may use acrylic paint or pencil crayons or watercolours even!)

Have fun!
